Re-take: People retaking a component will join the appropriate component group for the component they are retaking. There is no separate retake group.

For people pairing Component 1 & 4 and/or Component 2 & 3, there will be a 15-minute break between sessions. Bring a lunch—there is a refrigerator and microwave available for you. We’ve found that people prefer to have a working lunch and have a shorter day rather than to have 30 or 45 minutes for folks to go out to eat lunch.
